

## Final Project C#

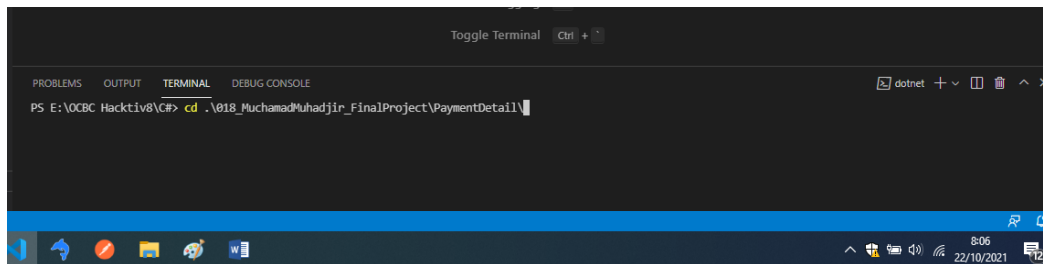

**Nama : Muchamad Muhadjir**

**Kode Peserta : FSDO001ONL018**

Saya mengerjakan Final Project Standard Menggunakan API tanpa JWT. Saya juga menggunakan Visual Studio Code untuk pengerjaannya.

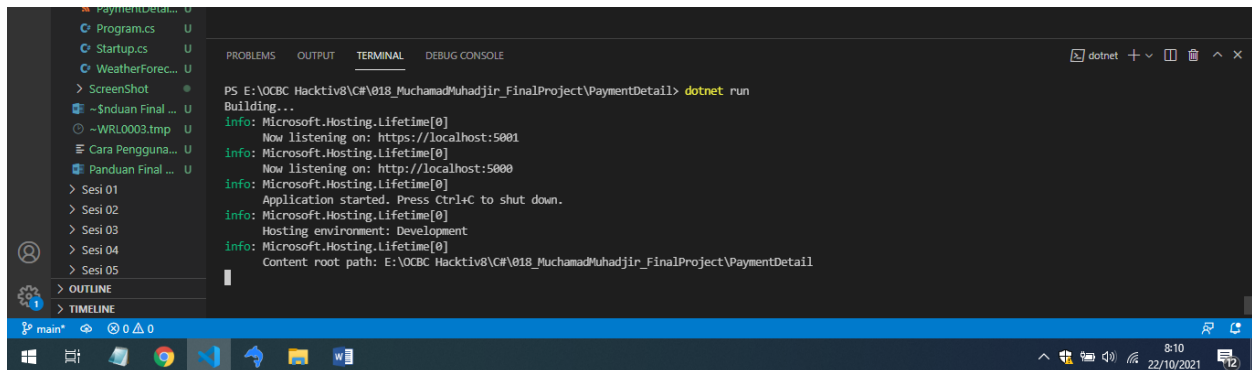

Pertama buka VS Code dan pindah ke direktori

“.\018\_MuchamadMuhadjir\_FinalProject\PaymentDetail”

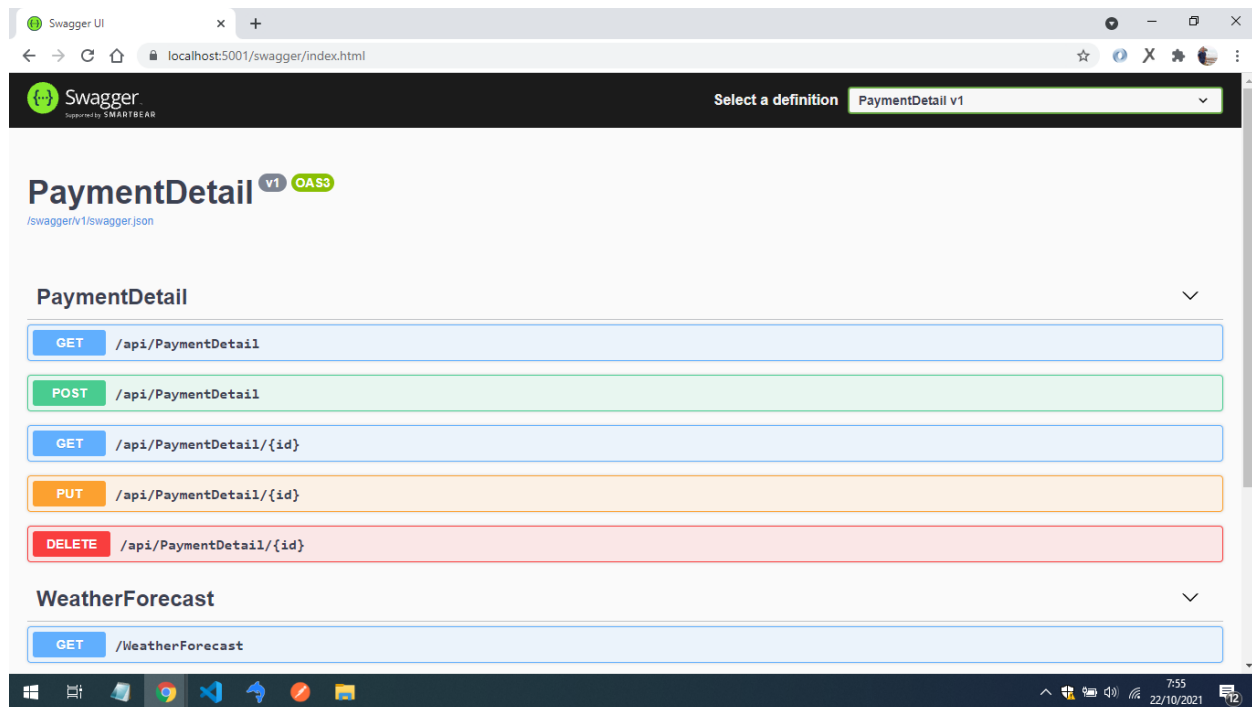

Lalu Ketikkan “dotnet run”

dotnet run

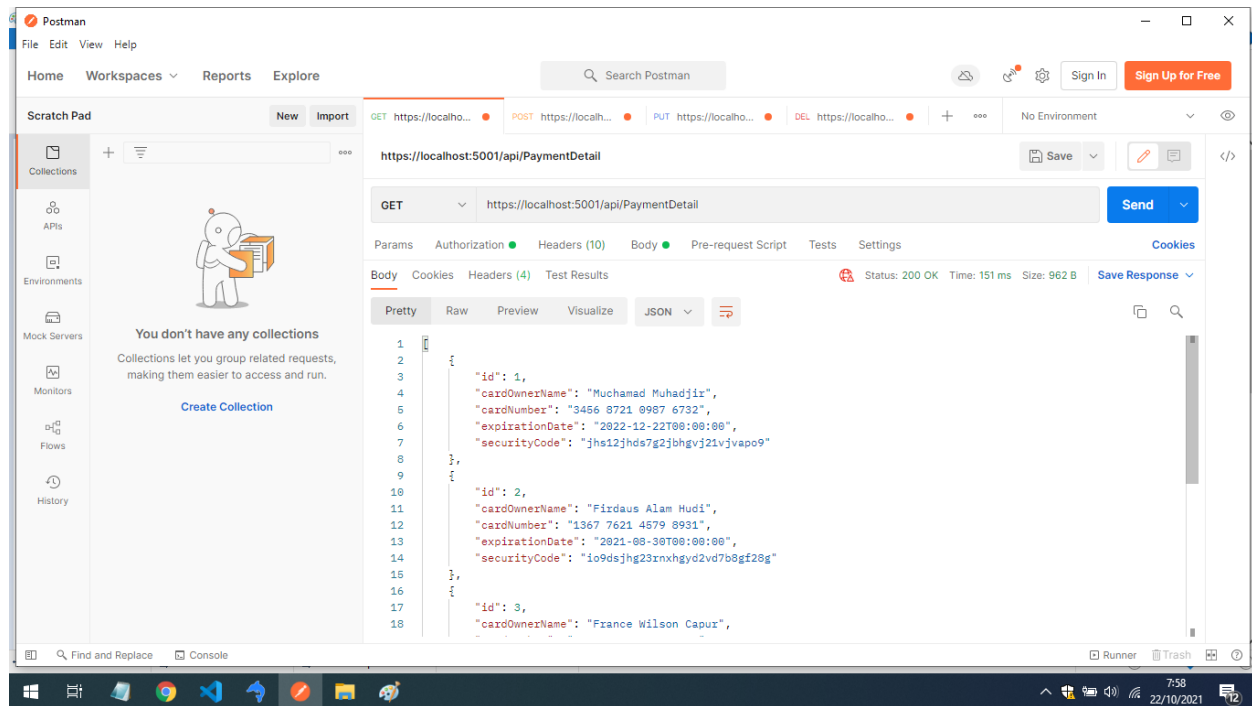

Buka browser dan ketikkan alamat web “localhost:5001/swagger/index.html”

Buka Postman

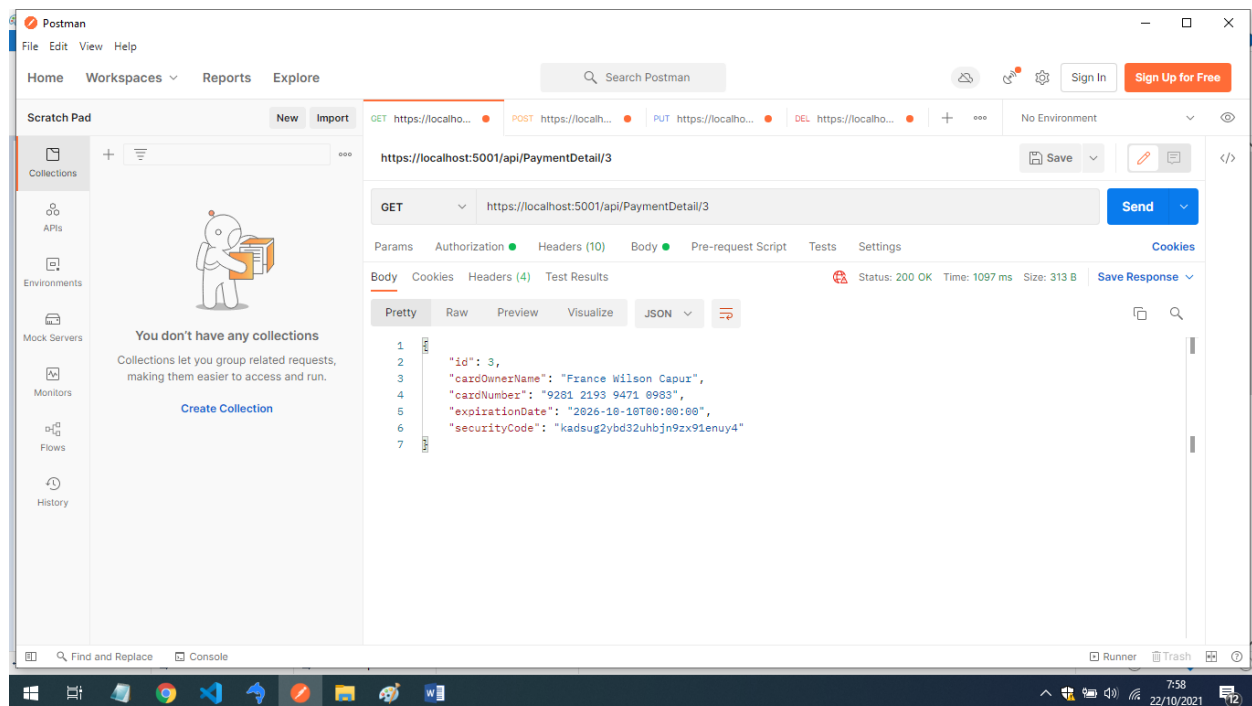

[GET]

`https://localhost:5001/api/PaymentDetail`

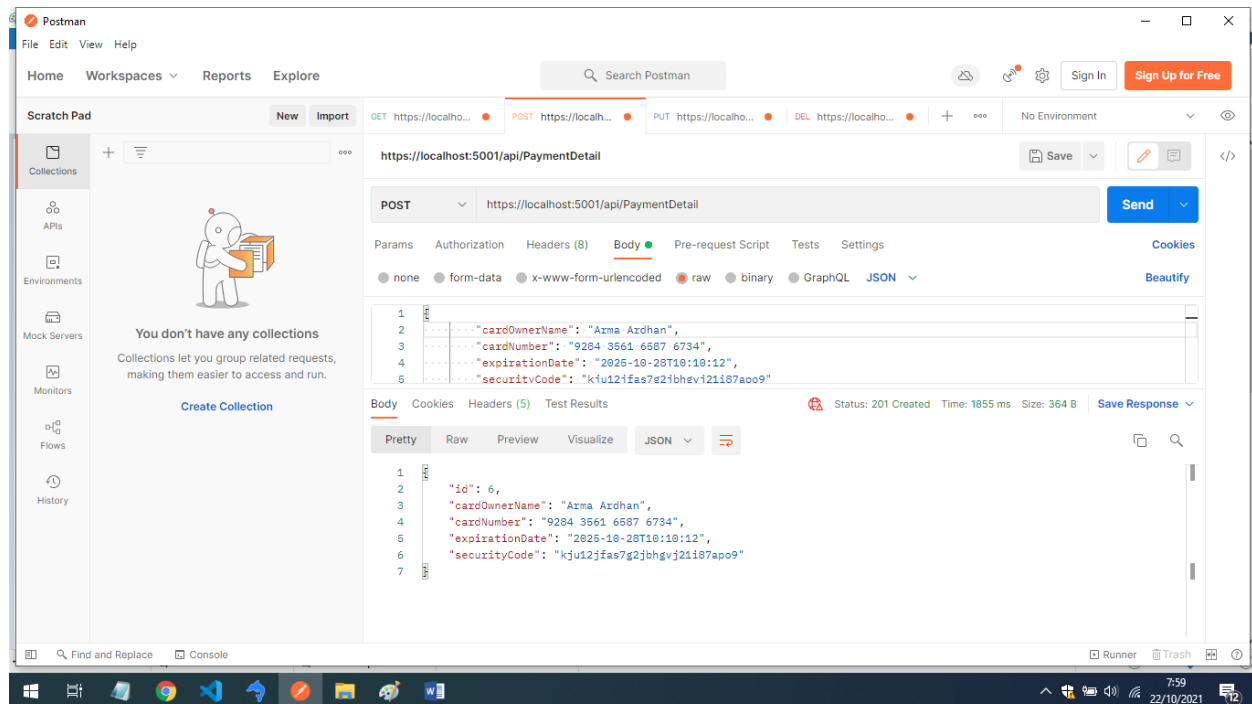

[GET('{{id}}')]

https://localhost:5001/api/PaymentDetail/id

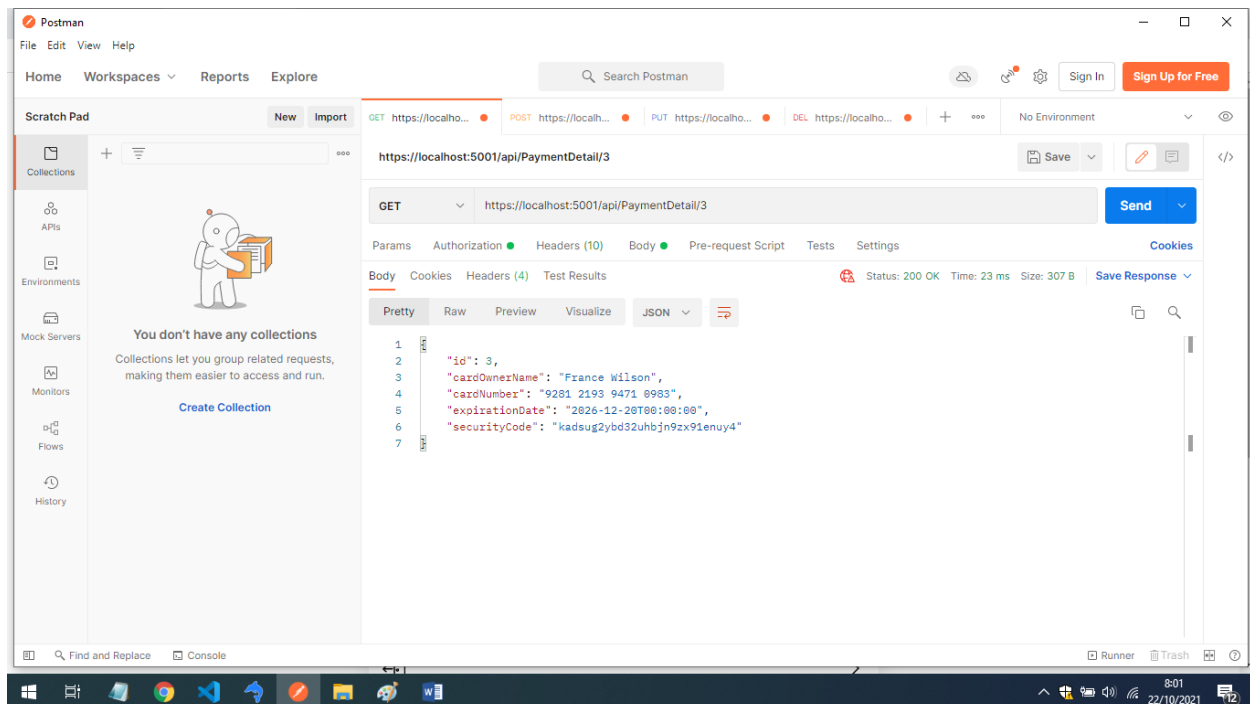

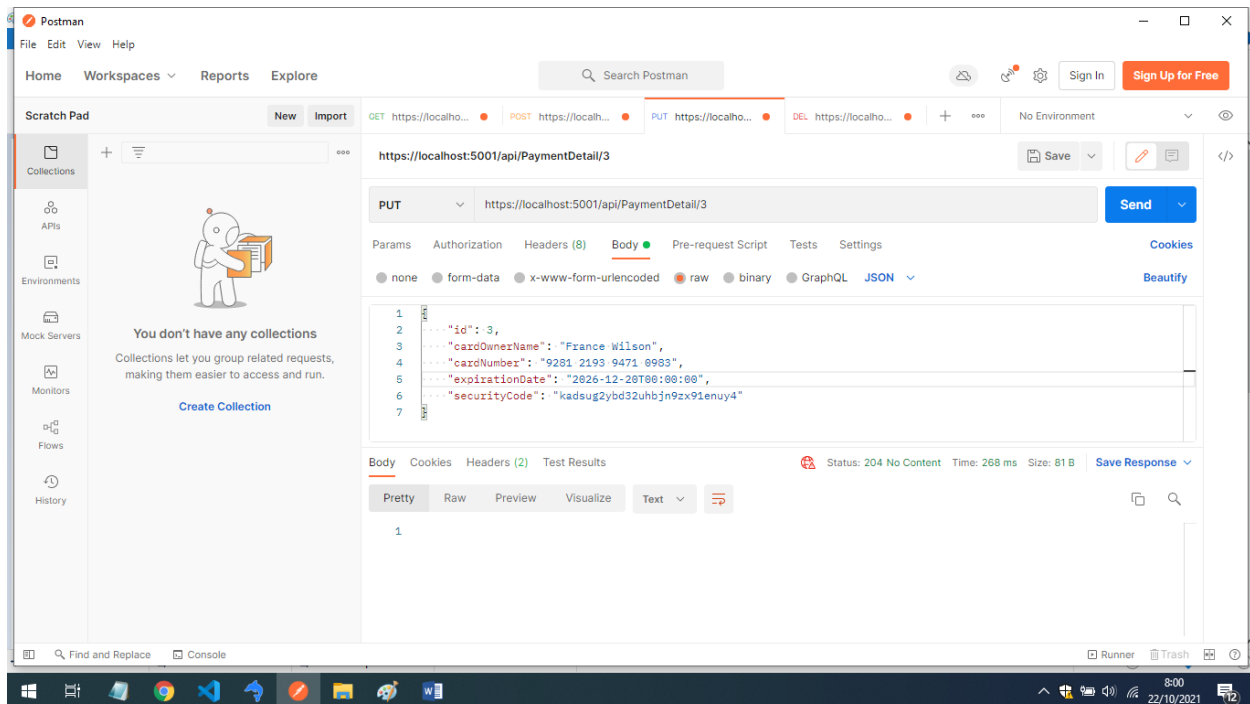

[POST]

https://localhost:5001/api/PaymentDetail

[PUT('{id}'))]

https://localhost:5001/api/PaymentDetail/id

[DELETE('{id}')]

https://localhost:5001/api/PaymentDetail/id
